

FIRSTLINE[®] P MultiPanel

Remote Monitoring Panel

- **Graphical high-definition LCD panel**
- **Three independent serial connections**
- **Compatible with most BMS management programs**
- **Communications flow LED status indicator**
- **Serial port upgradeable firmware**

MultiPanel is a remote monitoring device that can provide a detailed UPS status overview in real time. It is compatible with all FirstLine P UPS and can display values for UPS specific input and output supplies, and battery set measurements. MultiPanel has a high-definition graphical display and can report in seven languages: English, Italian, German, French, Spanish, Russian and Chinese. It has three independent serial ports, one of which allows for UPS monitoring via the MODBUS/JBUS protocol (on either an RS485 or RS232 serial line). The others can be used with devices such as the Netman Plus or a PC running PowerShield software.
